Key words. ISM: cosmic rays, supernova remnants – individual: SN 1006 – errata, addenda

Equation (3) on page L12 has been misprinted. The left hand side is missing. The correct equation is

$$l_i = \frac{2\kappa_i}{u_i} \left[1 - (-1)^i \sqrt{1 + 4\kappa_i/(u_i^2\tau_i)} \right]^{-1}. \quad (3)$$
