A&A 653, A142 (2021), <https://doi.org/10.1051/0004-6361/202039646>

Key words. parallaxes – proper motions – stars: formation – stars: pre-main sequence – ISM: clouds – errata, addenda

An error occurred during the production process. In Sect. 4 (Summary and conclusion), two paragraphs were misplaced. The first paragraph should be “We studied the kinematics ...,” whereas paragraph “More rigorous study ...” should be placed separately, after the enumeration.
