Key words. celestial mechanics – chaos – methods: numerical – errata, addenda

Equation (25) in the original paper should read

$$\mathcal{F}_s = -\frac{1}{s} \{\Gamma \mathcal{V}, \mathcal{F}_{s-1}\}, \quad (1)$$

in agreement with Eq. (8) in [Ciraolo \(2004\)](#). Fortunately, this was only a typing error, and as such it does not affect any results published in the paper.
