A&A, 699, A211 (2025), <https://doi.org/10.1051/0004-6361/202452474>

Key words. errata, addenda – magnetohydrodynamics (MHD) – Sun: photosphere – sunspots

The online supplementary material for Fig. 7, specifically figures of 15 static vertical cuts across simulated penumbral grains, was inadvertently omitted and can now be found here: <https://zenodo.org/records/16108587>
