

2nd Scientific Writing for Young Astronomers

Blankenberge - Belgium
18-19-20 May 2009

About the school

The direct purpose of organising an "Astronomy and Astrophysics School" is to teach young authors how to express their scientific results through adequate and efficient science writing. In other words: how to write scientific papers for different forums (journals, proceedings, thesis manuscripts, etc.).

The School is open to PhD students

www.swya.org

Lectures will be presented on: ◀

- The Editorial Office and the Editors
- The Publisher as a service provider
- Refereed and non-refereed journals, ISI and non-ISI, etc.
- The Journal A&A
- The writing process
- Technical aspects of scientific writing
- ADS, CDS, and other bibliometric databases
- Libraries, library services and librarians
- Policies of astronomical societies
- etc.
